

# The Leader in »» Precast Innovation

**CON CAST PIPE**

Any vendor can deliver pipe. At Con Cast Pipe we see ourselves as more than just a supplier of infrastructure products. We believe we are partners, working with our clients to develop effective precast concrete solutions. We're driven to provide products, service and technical support that go above and beyond industry standards. For more than a quarter of a century we have earned a reputation as precast leaders. We are committed to excellence and we constantly invest in ongoing innovation in pursuit of our ultimate goal: providing only the best for our customers.

Whether you require non-standard sizes, bridges, custom solutions or expertise on how to address a challenging installation, we're here to help. We consistently deliver on time and provide service that exceeds expectations. Partner with us and let our team turn your toughest design challenges into our latest concrete solution.

## Beyond Standard »

# » A Precast Solution for Every Job

Con Cast Pipe's two state-of-the-art production facilities in Guelph and Oakville are equipped with the latest technology, allowing us to produce with consistency, quality and in volume. We create a wide range of standard products including:

**Concrete Pipe**

**Maintenance Holes**

**Catch Basins**

**Box Units**

**TriSpan**

**Utility Chambers**

**Monobox Maintenance Holes**

**CON/SPAN**

**Hydroguard**

**and more...**

## Custom Products

Dealing with non-standard sizes? Working with a difficult to access site? Need a custom design? At Con Cast Pipe we want you to bring your biggest infrastructure challenges to us. Our team has an 'anything is possible' attitude, and a proven track record of delivering custom products faster than anyone else. Let us turn your biggest design challenges into our latest success.

## Quality and Compliance

At Con Cast Pipe we recognize the value of approved industry standards and regulations. All of our reinforced concrete products are designed and manufactured in accordance with:

Plant Prequalification Program (PPP)

Canadian Standards Association (CSA)

Ontario Provincial Standard Drawings (OPSD) and Specifications (OPSS)

Canadian Highway Bridge Design Code – CAN/CSA-S6-06 (CHBDC)

American Standards for Testing and Materials (ASTM)

American Railway Engineering and Maintenance-of-Way Association (AREMA)

Local municipal standards

## » A Solid Team

When you work with Con Cast Pipe, you gain access to the expertise of our team of dedicated professionals. From our production team to our administrators, from drivers to designers to senior management: everyone at Con Cast takes great pride in the work we do and how we do it.

» Why concrete?

Design flexibility

Quality

Longevity

Durability

Safety

## » Unbeatable Service: From Design to Destination & Beyond

We want to do more than sell you a product. We want to provide you with a solution. Our in-house engineers and design experts are available to help you find the right answer for your infrastructure challenges. We bring them in on your projects from the earliest stages of planning to ensure you have the best possible advice.

Customers always have access to Con Cast Pipe's team for input – it's part of what sets us apart from the competition. The value we bring to our customers' work starts in the planning stages, and lasts beyond the final installation. We're always here when you need us.
