

CONCAST. CONSTRUCT. CONNECT.

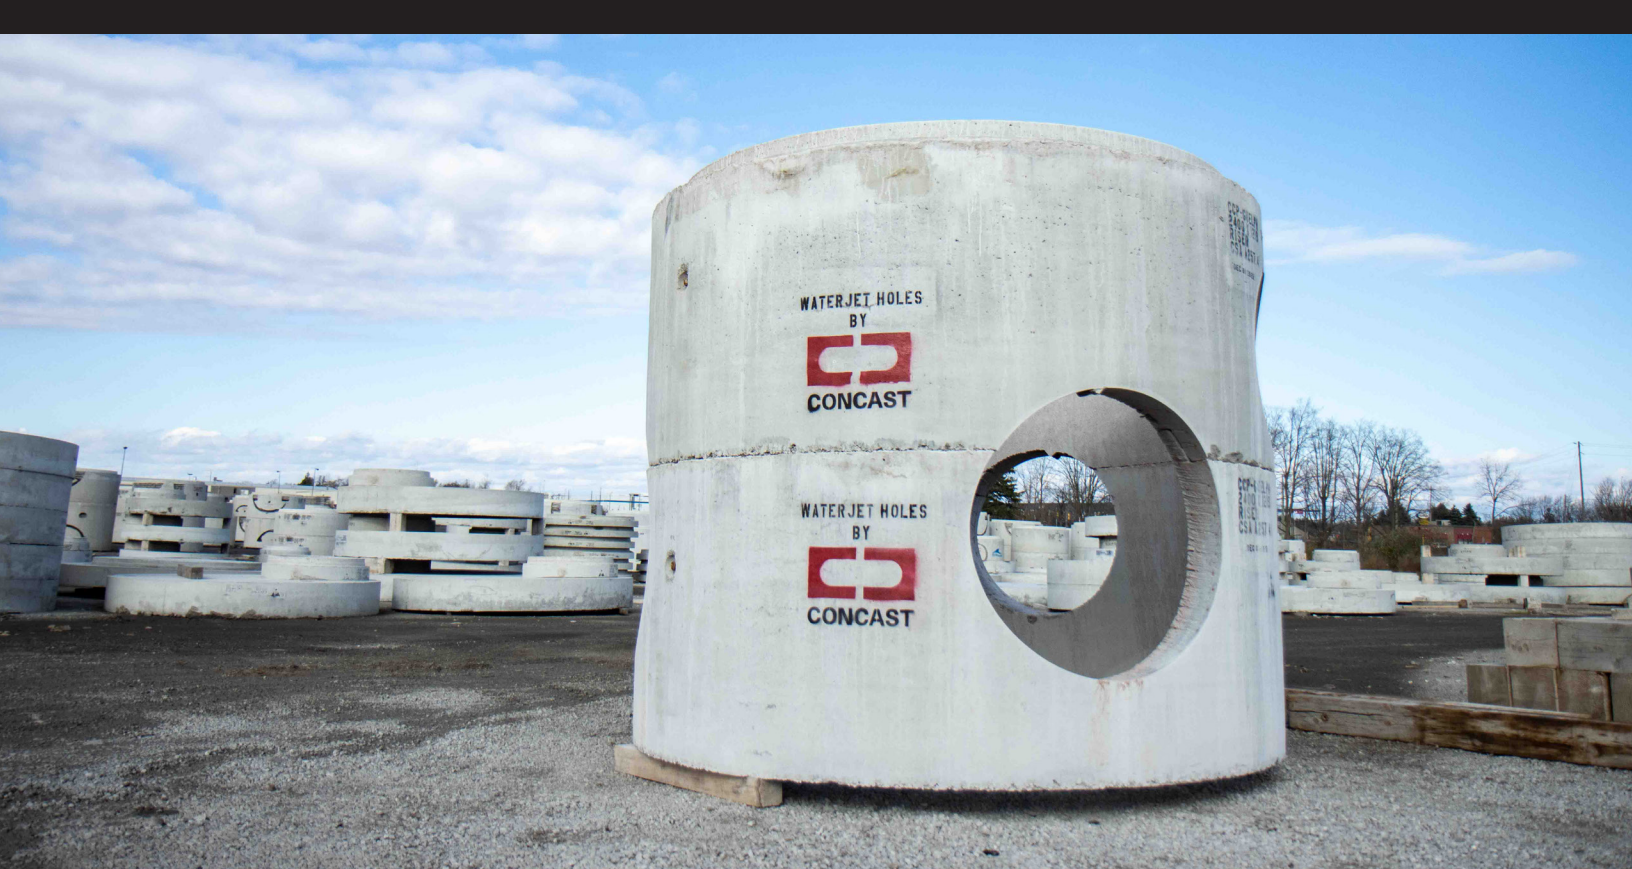

THE LEADER IN
PRECAST INNOVATION

BEYOND STANDARD

Any vendor can deliver pipe. At CONCAST, we see ourselves as more than just a supplier of infrastructure products. We believe we are partners, working with our clients to develop effective precast concrete solutions. We're driven to provide products, service and technical support that go above and beyond industry standards.

Since 1989, we have earned a reputation as precast leaders. We are committed to excellence, and we constantly invest in ongoing innovation in pursuit of our ultimate goal: providing only the best for our customers.

Whether you require non-standard sizes, bridges, custom solutions, or expertise on how to address a challenging installation, we're here to help. We consistently deliver on time and provide service that exceeds expectations. Partner with us and let our team turn your toughest design challenges into our latest concrete solution.

A PRECAST SOLUTION FOR EVERY JOB

CONCAST's two state-of-the-art production facilities, located in Guelph and Oakville, are equipped with the latest technology, allowing us to produce with consistency, quality, and in volume. We create a wide range of standard products, including:

- Concrete Pipes
- Perfect Pipes
- Maintenance Holes
- Catch Basins
- Box Units
- TriSpan
- Microtunneling
- Utility Chambers
- Monobox Maintenance Holes
- CON/SPAN
- Oil & Grit Separators (OGS)
- and more...

CUSTOM PRODUCTS

Dealing with non-standard sizes? Working with a site that's difficult to access? Need a custom design?

At CONCAST and Hy-Grade, we want you to bring your biggest challenges to us. Our team has a "anything is possible" attitude, and a proven track record of delivering custom products faster than anyone else. Let us turn your biggest design challenges into our latest success.

QUALITY AND COMPLIANCE

At CONCAST, we recognize the value of approved industry standards and regulations. All of our reinforced concrete products are designed and manufactured in accordance with:

Plant Prequalification Program (PPP)
Canadian Standards Association (CSA)
Ontario Provincial Standard Drawings (OPSD) and Specifications (OPSS)
Canadian Highway Bridge Design Code - CAN/CSA-S6-06 (CHBDC)
American Standards for Testing and Materials (ASTM)
American Railway Engineering and Maintenance-of-Way Association (AREMA)
Local municipal standards

OUR CERTIFICATIONS

CONCAST is proud to hold many industry standard certifications, ensuring we deliver the best products possible. Included in our certifications are:

Certificate of Authorization from the Professional Engineers of Ontario
Canadian Precast Concrete Quality Assurance (CPCQA) - Oakville & Guelph
CWB - CSA Standard W47.1 - Guelph, Oakville & St. Catharines
CWB - CSA W186 - Guelph, Oakville & St. Catharines
CSA Group - CSA Standard A23.4-16 - St. Catharines

HY-GRADE PRECAST CONCRETE

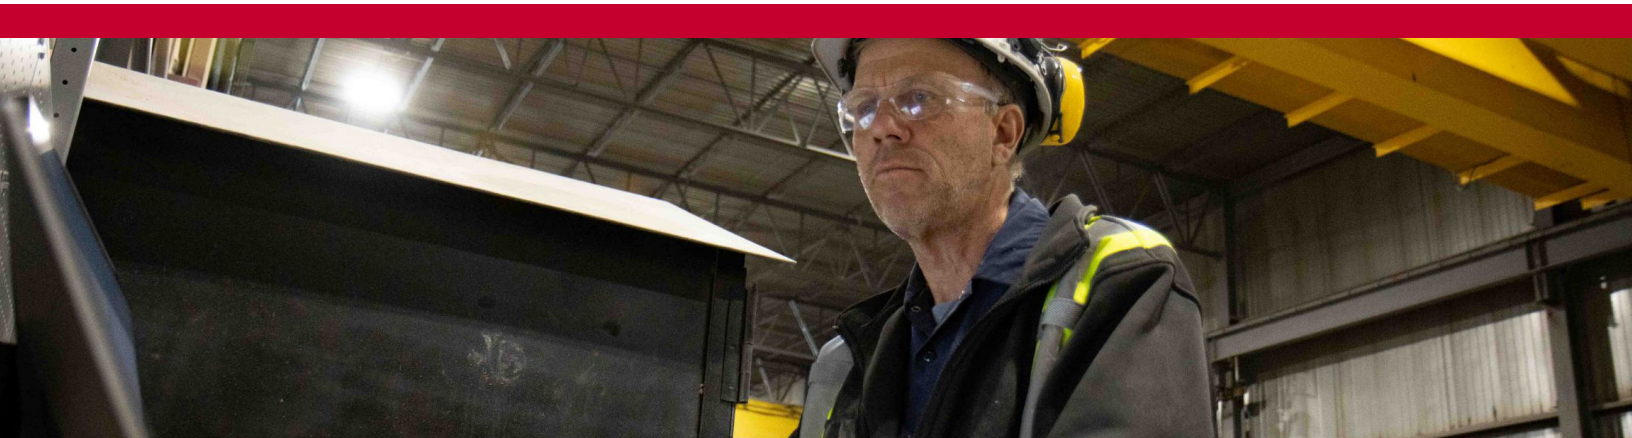

Since 1948, Hy-Grade Precast Concrete has provided innovative and high quality products to the Ontario marketplace. In the spring of 2017, CONCAST welcomed Hy-Grade Precast Concrete to their family, expanding the CONCAST product offering to include additional precast concrete solutions. Hy-Grade Precast Concrete offers over 65 years of industry leadership, outstanding service and professional design support to the CONCAST team.

The Hy-Grade Precast Concrete manufacturing facility is equipped with the latest technology to produce exceptional quality products. These products include:

- Stairs & Landings
- Highway & Security Barriers
- Utility Vaults
- Precast Panels for Retaining Walls

A SOLID TEAM

When you work with CONCAST, you gain access to the expertise of our team of dedicated professionals, including our production team, onsite engineers and designers, administrators, drivers, and senior management. Everyone at CONCAST takes great pride in the work we do and how we do it.

WHY CONCRETE?

LONGEVITY

QUALITY

DESIGN FLEXIBILITY

DURABILITY

SAFETY

UNBEATABLE SERVICE

FROM DESIGN TO DESTINATION, AND BEYOND.

We want to do more than sell you a product. We want to provide you with a solution. Our in-house engineers and design experts are available to help you find the right answer for your infrastructure challenges. We bring them in on your projects from the earliest stages of planning to ensure you have the best possible advice.

Customers always have access to CONCAST's team for input - it's part of what sets us apart from the competition. The value we bring to our customers' work starts in the planning stages, and lasts beyond the final installation. We're always here when you need us.
