

JOB DESCRIPTION

SALES ESTIMATOR

Incumbent:	TBD	Department:	Sales
Reports to:	Director of Engineering & Sales	Title:	Sales Estimator
Location:	Guelph	Review Date:	January 2026

Job Profile:

The Estimator will be responsible for the thorough specification and product detail review for Sales opportunities and providing accurate and timely quoting of customer requirements from concept through installation. This position will also produce take-offs, proposals, and supporting documentation (sketches, drawings, reports, change orders, etc.) for bid and product pursuit submissions. In this role, the Estimator will support the Sales team, Project Managers, and operations by providing clear, concise and timely information in order to safely and economically produce, ship and install quality products meeting or exceeding customer specifications and expectations.

Primary Responsibilities:

- Accountable for accurate and timely response to customer inquiries, including technical marketing information, specification development, quotations, installation support and post-installation consultations,
- Accountable for accurate interpretations of customer requirements, drawings, specifications, etc., and ensuring all take offs, pricing, proposal submittal packages, turnover materials, and other materials generated are defect free prior to being issued to others for use.
- Thoroughly read and understand all project requirements and product specifications to ensure accurate quotes and submit to Sales Manager for review prior to release.
- Assist in the maintenance of customer and project information in the Company's CRM software.
- Responsible for initial set up of project information into the Company's Accounting/Project tracing software and assist as required in maintaining customer and project information in the software.
- Collaborate with the Procurement team to obtain vendor, subcontractor, etc. pricing, as required.
- Create and utilize cost effective methods and/or products and services in order to increase the Company's competitive position.
- Collaborate with Project Management, Operations, and Quality teams to ensure projects can be produced, shipped, and installed as specified prior to quoting.

Required Skills and Attributes:

- Proven focused customer satisfaction approach in dealing with internal and external stakeholders
- Strong detail orientation, with a focus on accuracy and timeliness
- Excellent communication and advisory skills, comfortable presenting to technical audiences
- Strong interpersonal skills with a positive, go-getting attitude
- Ability to effectively work and collaborate within a team environment
- Demonstrated proficiency with Microsoft Office – Outlook, Excel, Word
- Previous experience with CRM and project management software

Education Requirements & Qualifications:

- Post-secondary degree or diploma in Civil Engineering or Construction related field equivalent is preferred
- 3-5 years' experience in construction, manufacturing and/or industrial settings
- Sales experience is an asset

Working Environment:

- Open office, high traffic environment with appropriate facilities
- Office workstation cubical. Workstations are equipped with a desk, chair, filing cabinet, mid height partitions, integrated office phone, and computer.
- Hours of operation 8:00 am – 4:30 pm with a 30-minute unpaid lunch break. Shift subject to change based on operational demand.
- Overtime may be required based on production and/or customer demands.
- Staff lunchroom facilities are located on the 2nd and 3rd floor.
- Physical activities will consist of extended periods of sitting, periodic filing, inter-office walking, and meeting room attendance.
